THERE'S NO TIME FOR SPOOLING UP IN THIS SPORT.

When RealTime Racing, the winningest team in the history of SCCA SPEED World Challenge competition, decided to enter the sport of drifting—they demanded instant power. The engineers, mechanics and driver Pierre Kleinubing were pleased with the quick acceleration a Vortech Supercharged 400+ horsepower 2.2 liter powerplant provided. By selecting our High-output Charge Cooled System, RealTime has put performance first. Now it's your turn.
